

Analyst & Ecosystem Recognition

Independent research, analyst mentions, and hyperscaler-issued recognitions of Lyzr's enterprise agentic AI platform.

Executive Overview

Lyzr AI has secured recognition across the world's leading independent analysts and all four major cloud hyperscalers. These recognitions span competitive assessments (Everest PEAK Matrix, HFS Horizons), market radars and hype cycles (Gartner), solution landscapes (Forrester), technology innovation recognition (Frost & Sullivan), category leadership lists (CB Insights AI 100, IDC), peer review platforms (G2, Gartner Peer Insights), hyperscaler analyst-equivalent technical recognitions and partner programs (AWS, Google Cloud, IBM, Microsoft Azure, NVIDIA), VC-published market maps (Insight Partners, a16z), AIM Research's PeMa Quadrant, and market-data platforms (Latka).

The table below summarises the breadth; subsequent sections give the full inventory.

Analyst / Research / Ecosystem	Mentions	Research / Recognition Type	Coverage Period	Highest Recognition
Gartner	22	Hype Cycles, Impact Radars, AI Vendor Race, Innovation Insights, Peer Insights	2024–2026	Tech Innovator in Agentic AI + Hype Cycle for Agentic AI 2026
CB Insights	16	AI 100, ESP Matrix, Scouting Reports, Market Maps, Executive & CEO Interviews, Expert Collections	Aug 2024 – Jul 2026	#6 by Mosaic Score (890/1000) – AI 100 2026; Challenger – Supply Chain AI Agents ESP
HFS Research	3	Horizons, Hot Tech, Research Agenda	2024–2026	Horizon 2 Enterprise Innovator – HFS Horizons: Agentic Technology 2026
Everest Group	2	PEAK Matrix®, Vertical Market Assessment	2026	Major Contender – Agentic AI Products PEAK Matrix 2026
Frost & Sullivan	1	Best Practices recognition – technology innovation	2026	2026 Agentic AI Technology Platform Innovation recognition
Forrester	1	Solutions Landscape – vendor inclusion	Q2 2026	Named in the Agentic Control Plane Solutions Landscape, Q2 2026
IDC	1	Market Recognition	2025–2026	Top AI Agent Orchestration Platform

Analyst / Research / Ecosystem	Mentions	Research / Recognition Type	Coverage Period	Highest Recognition
G2	9	Peer Review / Product Rankings, Fall 2026 Grid® & Index Reports	2025–2026	Represented across eight G2 Fall 2026 reports; 4.4 / 5 from verified customer reviews
IBM	5+	watsonx Catalog, IBM Cloud Catalog, IBV Report, Partner Directory	May 2025 – Dec 2025	Featured in IBM watsonx Orchestrate Agent Catalog (Think 2025) + IBM IBV Agentic AI Report
Google / Google Cloud	6+	Partner Directory, Cloud Ready Designation, Ecosystem Program, On-Stage Featured, Product Integrations	Sep 2024 – 2026	Google On-Stage (May 2025) + Cloud Ready – BigQuery + AI Agent Ecosystem Partner
AWS	10+	Marketplace SKUs, Partner of the Year Finalist, Competencies, Specializations, APN Blog	Jun 2025 – Dec 2025	Finalist – 2025 Global AWS Partner of the Year (GenAI) + GenAI Competency + Agentic AI Specialization
Microsoft Azure	2	Technology Partner, Azure AI Foundry reference architecture	May 2026 – 2026	Named Microsoft Azure technology partner – production layer for Azure AI Foundry / Copilot Studio
NVIDIA	1	Inception Program, NIM ecosystem partner	May 2025 – 2026	NVIDIA Inception Program member + NIM / GPU stack ecosystem partner
AIM Research	1	Vendor evaluation – PeMa Quadrant (Penetration × Maturity)	2026	Top Agentic AI Platform Providers 2026 – PeMa Quadrant
VC Market Maps (Insight Partners, a16z)	2	Tier-1 VC published market-map placements	Aug 2024 – Dec 2024	Featured on Insight Partners and a16z AI agent / sales market maps
Latka	1	Company metrics profile + founder interview	Jul 2026	Published operating profile – \$12M ARR, \$250M valuation, 32 enterprise customers, 95% gross margin

Gartner

Lyzr appears in 22 Gartner research notes in the past 12 months, spanning Hype Cycles, Emerging Tech Impact Radars, AI Vendor Race notes, Innovation Insights, and the Peer Insights platform. This is the deepest body of coverage from any single analyst firm and reflects Lyzr's presence across the full breadth of Gartner's agentic AI research agenda.

Report / Publication	Year	Category / Label	Detail & Significance
Hype Cycle for Agentic AI, 2026 Link: Gartner document page	2026	Hype Cycle — Vendor Mention	Lyzr mentioned in Gartner's flagship Hype Cycle for Agentic AI 2026 — one of the most widely referenced Gartner publications for enterprise technology buyers evaluating the agentic AI landscape. Published 2 April 2026; analysts Kandaswamy, Ramos, Olliffe, Coshov, den Hamer, Brethenoux.
Emerging Tech: AI Vendor Race — Startups to Watch in Agentic AI	2025–2026	Startups to Watch — Scale-up (Polished Quadrant)	Lyzr placed in the 'Polished — Scale-ups' quadrant with High funding level and strong market traction. Positioned ahead of SuperAGI, Retell AI, and Code GPT. Categorised alongside Lindy, Leena AI, and Relevance AI as a top agentic AI startup to watch.
Emerging Tech: The Future of Agentic AI in Enterprise Applications	2025–2026	Enterprise Agentic AI — Vendor Reference	Lyzr mentioned in Gartner's widely-read research note on the future of agentic AI in enterprise applications — addressing how enterprises should assess and adopt agentic AI platforms for production-scale deployment.
Emerging Tech: AI Vendor Race — Enterprise AI Will Fail to Scale Without Agentic Orchestration Platforms	2025–2026	Agentic Orchestration — Vendor Race	Lyzr featured in Gartner's research note on why enterprise AI deployments fail at scale without proper agentic orchestration infrastructure — directly aligned with Lyzr's core platform proposition of enterprise-grade agent governance and orchestration.
Emerging Tech: Tech Innovators in Agentic AI	2025	Tech Innovators — Agentic AI	Lyzr AI formally named as a Tech Innovator. Recognised for embedded agent reliability — autonomously reviewing, critiquing, and correcting agents before they act. Market impact stated: agent ops tools that improve reliability will grow customer trust and drive broader adoption.
Emerging Tech Impact Radar: Agentic AI	2025	Impact Radar — Agentic AI Ecosystem	Lyzr featured across multiple technology profiles in Gartner's Emerging Tech Impact Radar for Agentic AI — including Guardian Agents, Cybersecurity Agent Builders, and Composite AI — demonstrating breadth of coverage across the agentic ecosystem.
Emerging Tech Impact Radar: AI Cybersecurity Ecosystem	2025	AI Cybersecurity Ecosystem — Vendor Mention	Lyzr featured in Gartner's Impact Radar for the AI Cybersecurity Ecosystem, positioning Lyzr at the intersection of AI agent platform infrastructure and enterprise cybersecurity tooling and compliance.

Report / Publication	Year	Category / Label	Detail & Significance
Emerging Tech: AI Vendor Race — Agentic AI Maturity Roadmap	2025	Agentic AI Maturity — Vendor Race	Lyzr mentioned in Gartner's Agentic AI Maturity Roadmap — a guide used by enterprise leaders to assess their agentic AI readiness and select appropriate vendor platforms at each stage of maturity.
Emerging Tech: AI Vendor Race — Roundup for Agentic AI	2025	Agentic AI Roundup — Vendor Race	Lyzr included in Gartner's consolidated Agentic AI vendor roundup — a key reference note used by enterprise buyers to benchmark available platforms across the agentic AI market.
Emerging Tech: AI Vendor Race — Customize Agentic AI Solutions to Unlock New Market Opportunities	2025	Customisation & Market Opportunity — Vendor Race	Lyzr mentioned in Gartner's research on customising agentic AI for new market opportunities — aligned with Lyzr's low-code/no-code agent builder and industry-specific blueprint strategy for BFSI, HR, and telco.
Emerging Tech: AI Vendor Race — Customer Trust Is a Critical Barrier to Agentic AI Adoption	2025	Customer Trust & Reliability — Vendor Race	Lyzr featured in Gartner's note on customer trust as a critical barrier to agentic AI adoption — a challenge directly addressed by Lyzr's Responsible AI module and embedded agent reliability capabilities.
Emerging Tech: AI Vendor Race — Design AI Agents to Work With Messy Data	2025	Data Readiness — Vendor Race	Lyzr mentioned in Gartner's research note on designing AI agents to handle imperfect, real-world enterprise data — a critical production challenge that Lyzr's platform architecture directly addresses through its Knowledge Graph and Knowledge Base modules.
Emerging Tech: AI Vendor Race — Agent-to-Agent Economy: Position Now for Autonomous Business Shift	2025	Agent-to-Agent Economy — Vendor Race	Lyzr included in Gartner's forward-looking research on the agent-to-agent economy, examining how orchestration platforms need to enable autonomous inter-agent collaboration at enterprise scale.
Innovation Insight: AI SDR Agents for Inbound and Outbound Sales Communication	2025	AI SDR Agents — Innovation Insight	Lyzr featured in Gartner's Innovation Insight on AI SDR agents for sales — one of the fastest-growing enterprise agent use cases. Validates Lyzr's positioning in the sales automation and outbound communication agent market.
Innovation Insight: Outcome-as-Agentic-Solution Commercializes AI Outcomes	2025	Outcome-as-Agentic-Solution — Innovation Insight	Lyzr featured in Gartner's Innovation Insight on outcome-based agentic solutions — relevant to Lyzr's Applied AI and Forward Deployed Engineer model in which Lyzr commits to productionising the first three agents and guaranteeing outcomes.

Report / Publication	Year	Category / Label	Detail & Significance
Emerging Tech: Provider Strategy Trends for Winning With Agentic AI	2025	Provider Strategy — Agentic AI	Lyzr mentioned in Gartner's provider strategy research on winning in the agentic AI market — positioning Lyzr as a relevant reference platform in discussions about enterprise AI provider strategy and platform selection.
Navigate GenAI in Sales Tech: Balance Opportunities and Risks	2025	GenAI in Sales Tech — Navigation Guide	Lyzr mentioned in Gartner's navigation guide for sales technology leaders balancing GenAI opportunities and risks, extending Lyzr's coverage into Gartner's sales technology and CRM-adjacent research stream.
Vendor Insight Report: Accenture	2025	Vendor Ecosystem — Partner Context	Lyzr mentioned in Gartner's Vendor Insight Report on Accenture, reflecting Lyzr's role as an enterprise AI agent platform used within Accenture's client deployments. Independently validates the Lyzr–Accenture partnership at Gartner research level.
AI Providers That Automate Business Decisions Control the Future of Work	2025	Business Decision Automation — Future of Work	Lyzr featured in Gartner's research on AI providers automating business decisions — directly relevant to Lyzr's BFSI and HR agent deployments where autonomous decision-making is the primary enterprise value driver.
Composite AI — Sample Vendor	2025	Composite AI — Sample Vendor	Lyzr listed alongside AWS, FICO, Fujitsu, IBM, Indico Data, Induced AI, SAS, and XMPPro as a sample vendor for Composite AI — the fusion of different AI techniques (LLMs, ML, rules-based) to improve efficiency and broaden knowledge representation.
Guardian Agents — Sample Vendor Link: Gartner press release — Guardian Agents category	2025	Guardian Agents — Sample Vendor	Lyzr listed as a sample vendor for Guardian Agents alongside Airrived, AWS, Google, Microsoft, and Relevance AI. Guardian Agents support trustworthy and secure AI interactions, capable of redirecting or blocking actions to align with predefined agent goals. Analysis by Alfredo Ramirez IV and Mark Wah.
Cybersecurity Agent Builders — Sample Vendor	2025	Cybersecurity Agent Builders — Sample Vendor	Lyzr listed as a sample vendor for Cybersecurity Agent Builder platforms alongside AWS, BlinkOps, Google, Microsoft, Relevance AI, and Sharelock. These platforms enable creation and management of AI agents for cybersecurity with low-code/no-code tools and built-in security integrations. Analysis by Alfredo Ramirez IV and Tushar Jain.
Gartner Peer Insights — AI Agent Marketplace for HR Link: Lyzr on Gartner Peer Insights	2025–2026	Peer Insights — AI Agent Platform	Lyzr listed and reviewed on Gartner Peer Insights as an AI agent platform for HR automation. Customer reviews highlight efficient HR task automation, document management, and integration capabilities. Listed in the AI Agent Management Platforms market.

CB Insights

CB Insights is the most sustained source of analyst coverage for Lyzr across the period. As of August 2026 the CB Insights platform records Lyzr in **9 research briefs** dating back to August 2024 – with the most recent published 20 July 2026. Lyzr additionally holds a placement on the Supply Chain AI Agents ESP Matrix and appears in 6 ongoing Expert Collections.

Report / Publication	Year	Category / Label	Detail & Significance
CEO Interview: Lyzr Link: CB Insights research brief	Jul 20, 2026	Executive Interviews — CEO Feature	CB Insights published a dedicated CEO interview with Siva Surendira in its Executive Interviews research series — the most recent of Lyzr's nine CB Insights briefs. Surendira positions the company explicitly on sovereignty: "Lyzr is a sovereign, on-prem, full-stack agent platform that's built for enterprises that want to own their intelligence." The brief's pull quote addresses agent cost control: "There are customers who spend almost 300M tokens just on a Slack agent ... they end up spending probably 10x more than what ideally they should be."
Executive Interview: Lyzr Link: CB Insights research brief	Jul 15, 2026	Executive Interviews — Vendor Feature	Lyzr featured in CB Insights' Executive Interview series, in which CB Insights analysts interrogate vendor leadership on market definition, customer needs, and differentiation. This brief features Siddharth Asokan, Chief Business Officer, on governance, auditability and data residency: "Value flows to whoever controls governance, auditability, and data residency." Inclusion in this series is analyst-selected and signals CB Insights treating Lyzr as a reference vendor in the agentic AI category rather than a data-only profile.
Finalist Interview: Lyzr AI Link: CB Insights research brief	May 5, 2026	AI 100 Finalist — Interview	Published alongside the AI 100 2026 announcement, this brief is CB Insights' finalist-level interview conducted with companies selected for the AI 100. It provides the analyst rationale behind Lyzr's inclusion and sits directly adjacent to the flagship list.
AI 100 — 2026 Edition Link: CB Insights AI 100 report page	May 5, 2026	Infrastructure & Compute — Development & Deployment	Lyzr named to the CB Insights AI 100 list of the 100 most promising private AI companies globally. Ranked #6 overall by Mosaic Score (890/1000), combining momentum, market, management, and money signals. Classified under Infrastructure & Compute > Development & Deployment. This is CB Insights' 10th annual AI 100. Selection draws on deal activity, partnerships, team strength, investor profile, headcount, proprietary Commercial Maturity and Mosaic scores, and Analyst Briefings submitted by the company.

Report / Publication	Year	Category / Label	Detail & Significance
ESP Matrix — Supply Chain AI Agents Link: CB Insights ESP page	2026 (live)	ESP Matrix — Challenger	Lyzr is named a Challenger on the CB Insights Supply Chain AI Agents ESP Matrix, among 15 other companies including Microsoft, IBM, and Oracle. The ESP (Emerging Space Provider) Matrix combines CB Insights data with analyst insight to rank vendors on Execution Strength and Market Strength. This is Lyzr's first ESP Matrix placement and extends its analyst-recognised footprint beyond BFSI and HR into supply chain and procurement.
Book of Scouting Reports: Industrial AI Agents & Copilots Link: CB Insights report page	Sep 10, 2025	Industrial AI Agents & Copilots — Featured Vendor	Lyzr featured in CB Insights' analyst scouting report covering the Industrial AI Agents & Copilots landscape. Positions Lyzr among the key vendors to watch for AI-driven automation in industrial and operational enterprise environments.
Book of Scouting Reports: The AI Agent Tech Stack Link: CB Insights report page	Sep 5, 2025	AI Agent Tech Stack — Featured Vendor	Lyzr featured in CB Insights' scouting report dedicated to the AI Agent Tech Stack. Positions Lyzr within the infrastructure and orchestration layer of the enterprise agent ecosystem, covering agent building, governance, and deployment tooling.
The AI Agent Market Map: March 2025 Edition Link: CB Insights market map	Mar 6, 2025	Enterprise AI Agents & Copilots — Market Map	Lyzr included in CB Insights' March 2025 AI agent market map update — one of the most widely referenced competitive landscape maps in the agentic AI space. Lyzr appears in the enterprise agent-building and orchestration segment.
The Industrial AI Agents & Copilots Market Map Link: CB Insights market map	Dec 23, 2024	Industrial AI Agents & Copilots — Market Map	Lyzr included in CB Insights' dedicated Industrial AI Agents & Copilots market map, highlighting the platform's relevance to operational and industrial enterprise automation use cases.
The Enterprise AI Agents & Copilots Market Map Link: CB Insights market map	Aug 2024	Enterprise AI Agents & Copilots — Featured Company	Lyzr featured as one of the highlighted companies in CB Insights' foundational Enterprise AI Agents & Copilots market map. Listed in the enterprise productivity and workflow automation segment alongside Kore.ai, Ema, Relevance AI, and Moveworks. One of the earliest major analyst placements for Lyzr.
CB Insights Expert Collections Link: Lyzr CB Insights profile	Ongoing 2024–2026	6 Expert Collections incl. Generative AI & Enterprise AI Agents	Lyzr is included in 6 CB Insights Expert Collections — analyst-curated lists of companies to know in key technology spaces. Collections comprise Artificial Intelligence (AI), Generative AI (GenAI), Insurtech, AI Agents & Copilots, AI agents (March 2025), and the AI Agents & Copilots Market Map (August 2024).

Report / Publication	Year	Category / Label	Detail & Significance
CB Insights Company Profile — status refresh Link: Lyzr CB Insights profile	Aug 2026	Platform Profile — Mosaic & Stage	CB Insights now classifies Lyzr at Series B stage with \$125M total raised, and records a Mosaic Score movement of +137 points in the preceding 30 days — the algorithmic measure of financial health and market potential that underpins the AI 100 ranking. The profile carries an "Analyst Briefing Submitted" designation.

Forrester

Forrester is the newest research house to enter Lyzr's recognition set, via its Solutions Landscape series. Forrester Landscapes are category-definition reports that enumerate the vendor set for an emerging market – inclusion signals that Forrester regards a vendor as a legitimate participant in the category it is defining.

Report / Publication	Year	Category / Label	Detail & Significance
The Agentic Control Plane Solutions Landscape, Q2 2026 Link: Lyzr OpenController – Agent Control Plane	Q2 2026 (pub. July 2026)	Solutions Landscape – Agentic Control Plane	Forrester's Agentic Control Plane Solutions Landscape, Q2 2026 identifies 33 vendors shaping how enterprises govern, monitor, and control AI agents across fragmented technology estates. Forrester defines the agentic control plane as "a common enterprise governance and control platform that sits above and across a heterogeneous estate of AI agents and agentic skills and applies a consistent envelope of oversight, governance, and controls so the agent portfolio can be managed consistently across platforms, vendors, and use cases." The report's central finding – "Buyers can't govern agents they can't see" – maps directly onto the Lyzr Agent Control Plane's registry-first architecture. Lyzr is recognised in the agentic control plane category under its Forrester · Agent Control Plane designation, aligning the Lyzr Agent Control Plane with Forrester's definition of the market.

HFS Research

HFS Research is a globally respected analyst firm specialising in AI, automation, and digital transformation. HFS coverage of Lyzr spans a formal Horizons competitive assessment, a dedicated Hot Tech vendor profile, and an early Research Agenda citation — representing the full spectrum of HFS recognition. Notably, HFS Research also built its own enterprise knowledge platform on Lyzr, further validating the platform's production credibility.

Report / Publication	Year	Category / Label	Detail & Significance
HFS Horizons: Agentic Technology, 2026 Link: HFS report page	April 2026	Horizon 2 — Enterprise Innovator	Lyzr placed as a Horizon 2 Enterprise Innovator in HFS's formal assessment of 12 agentic technology firms — spanning hyperscalers, SaaS/ERP providers, and AI-native firms. The report evaluates advancement toward Services-as-Software (outcome-based, near-full machine-led execution). Horizon 3 Market Leaders: AWS, Ema, Google Cloud, Microsoft, Rhino.ai, Salesforce, ServiceNow. Horizon 2 Enterprise Innovators: CrewAI, Lyzr, Otera, SAP, WRITER. No firms placed in Horizon 1. Key HFS finding: every firm in the cohort has production-grade agentic capabilities today — the bottleneck is no longer the technology but enterprise operating models, data readiness, and governance maturity. HFS noted AI-native firms like Lyzr win on depth and specificity. Authors: Phil Fersht (CEO), David Cushman, Niti Jhunjunwala, Jason Dann. Published 30 April 2026.
HFS OneOffice Hot Tech: Lyzr Link: HFS report page	February 2025	Hot Tech — Enterprise AI Agent Platform	Lyzr selected as an HFS OneOffice Hot Tech for its groundbreaking approach to making AI agents enterprise-ready — scalable, governable, and built for real-world impact. HFS stated: 'As enterprises move beyond AI experimentation, Lyzr provides a structured framework that ensures secure, compliant, and cost-effective AI adoption, embedding governance, responsible AI, and flexible deployment options at its core.' Key differentiator: the ability to move from proof-of-concept to full-scale production in days, not months. Authors: Dana Daher (Executive Research Leader) and Joel Martin (Chief Research Officer). Published 12 February 2025.
HFS 2030 Services Tech Vision / Research Agenda 2024–2025 Link: HFS Research Agenda 2024–2025 (PDF)	2024	AI-Led Agentic Services — Sample Vendor	Lyzr cited in HFS Research's 2030 Services Tech Vision as a sample vendor for the AI-led agentic services category — alongside Amazon Q, GitHub Copilot, and Replit. HFS positioned this category as the next evolution in services delivery: augmenting human capabilities through smart AI agents to optimise processes and decision-making, representing the shift from platform-led to AI-led delivery in the HFS services taxonomy.

Everest Group

Everest Group's PEAK Matrix® is a respected competitive assessment framework. A 'Major Contender' designation signals strong capability and market presence, placing Lyzr alongside enterprise-scale automation vendors including UiPath, Automation Anywhere, OneReach.ai, and Druid AI.

Report / Publication	Year	Category / Label	Detail & Significance
Agentic AI Products PEAK Matrix® Assessment 2026 Link: Everest Group report page	2026	Major Contender	Lyzr AI positioned as a Major Contender in the Everest Group Agentic AI Products PEAK Matrix® 2026. Placed among established players including UiPath, Automation Anywhere, OneReach.ai, and Druid AI. Published 16 March 2026; 27 providers assessed, with Lyzr AI named in the covered-provider list. Strong positioning on both Vision & Capability and Market Impact axes. The 2026 Leaders are Microsoft, Google, IBM, Salesforce, AWS, Kore.ai, and Ema; Lyzr sits in the Major Contenders band alongside Druid AI, EvoluteIQ, OneReach.ai, WRITER, UiPath, SoundHound AI, ServiceNow, Leena AI, Avaamo, Automation Anywhere, Appian, and Tungsten Automation.
Everest Group AI Agent Platform — HR & BFSI	2025–2026	AI Agent Platform for HR & BFSI	Lyzr recognised by Everest Group specifically for its AI agent platform capabilities in HR and BFSI (Banking, Financial Services & Insurance) verticals — areas where Lyzr maintains production-tested industry blueprints. This banking and HR depth is assessed as a dimension within the horizontal Agentic AI Products PEAK Matrix above.

Frost & Sullivan

Frost & Sullivan is a global growth advisory and market research firm. Its Best Practices recognition programme assesses vendors within a defined market on two axes – the strength of the underlying technology and the measurable impact it delivers for customers – making it a technology-innovation counterpart to the capability assessments carried out by Everest Group and HFS.

Report / Publication	Year	Category / Label	Detail & Significance
2026 Agentic AI Technology Platform Innovation recognition	Q3 2026	Technology Innovation – Agentic AI Platform	Lyzr recognised by Frost & Sullivan for technology platform innovation in agentic AI. The recognition sits in Frost & Sullivan's Best Practices programme, which evaluates a vendor's platform architecture and differentiation alongside the outcomes its customers realise in production. This is Lyzr's first Frost & Sullivan recognition and adds a fourth independent research house to the assessment set alongside Everest Group, HFS Research, and Forrester.

IDC (International Data Corporation)

IDC is one of the world's foremost market intelligence firms for the technology sector. Recognition as a Top AI Agent Orchestration Platform validates Lyzr's technical positioning in a rapidly growing category.

Report / Publication	Year	Category / Label	Detail & Significance
IDC Market Recognition – AI Agent Orchestration	2025–2026	Top AI Agent Orchestration Platform	Lyzr recognised by IDC as a Top AI Agent Orchestration Platform. This recognition is cited by Lyzr across its official product communications as a key analyst validation in the rapidly emerging orchestration category.

G2 — Peer Review Platform

G2 is the world's largest software peer review marketplace. G2 placements are built entirely on verified customer reviews rather than analyst judgement, which makes them the customer-evidence counterpart to the research-house assessments elsewhere in this document. In the **Fall 2026 cycle Lyzr is represented across eight G2 reports** — five Index reports and three Grid[®] Reports.

Report / Publication	Year	Category / Label	Detail & Significance
G2 Top AI Agent Builder Software Link: Lyzr G2 reviews page	2025–2026	AI Agent Builder — Top Rated	Lyzr listed as a Top AI Agent Builder Software on G2, based on verified customer reviews. Customers highlight low-code approach, built-in safety features (toxicity controller, sensitive data handler), multi-agent orchestration, and enterprise observability. Lyzr carries G2's AI Verified status — at least 10 reviewers have confirmed using the product's AI functionality.
Lyzr.ai G2 product profile — rating and category membership Link: G2 product page Link: AI Agent Builders category Link: AI Agents for Business Operations category	Live 2025–2026	Aggregate Rating — 4.4 / 5	Lyzr holds a 4.4 out of 5 aggregate rating on G2 from 46 verified customer reviews as at 23 September 2026. The product is listed in the Agentic AI parent category and the AI Agent Builders Software category, and appears in the AI Agents for Business Operations Grid [®] product set.

G2 Fall 2026 — Index Representation

Five Index reports. Index reports rank products within a category on a single dimension — relationship quality, usability, delivered results, or implementation experience — derived from the same verified review base as the Grid[®].

Report / Publication	Cycle	Category / Label	Detail & Significance
Relationship Index — AI Agents for Business Operations Link: G2 report preview	Fall 2026	Relationship Index	Measures ease of doing business, quality of support, and likelihood to recommend within the AI Agents for Business Operations category — the review dimensions that most directly predict renewal and expansion.
Relationship Index — AI Agents Link: G2 report preview	Fall 2026	Relationship Index	The same relationship dimension assessed in the broader AI Agents category, giving Lyzr representation on relationship quality across two distinct G2 category definitions.
Usability Index Link: G2 report preview	Fall 2026	Usability — Ease of use, admin and requirements fit	Scores ease of use, ease of administration, and how well the product meets stated requirements. Corroborates the low-code positioning that recurs in Lyzr's Gartner and HFS coverage.

Report / Publication	Cycle	Category / Label	Detail & Significance
Results Index Link: G2 report preview	Fall 2026	Results — ROI, adoption and delivered outcomes	Ranks products on likelihood to recommend, estimated ROI, adoption rate, and whether the product met expectations — the customer-evidence analogue of the production-rate argument Lyzr makes to analysts.
Implementation Index Link: G2 report preview	Fall 2026	Implementation — Speed and ease of deployment	Ranks products on average go-live time, implementation ease, and user adoption. Directly supports the HFS Hot Tech finding on moving from proof-of-concept to production in days rather than months.

G2 Fall 2026 – Grid[®] Representation

Three Grid[®] Reports. The Grid[®] is G2's flagship competitive artefact, plotting products on Satisfaction and Market Presence — the peer-review counterpart to a PEAK Matrix or a Horizons chart.

Report / Publication	Cycle	Category / Label	Detail & Significance
Grid[®] Report for AI SDK Link: G2 report preview	Fall 2026	Grid[®] — AI SDK	Lyzr represented in the flagship Fall 2026 Grid [®] for the AI SDK category, positioning the platform among developer-facing agent toolkits rather than only end-user agent applications.
Small-Business Grid[®] Report for AI SDK Link: G2 report preview	Fall 2026	Grid[®] — AI SDK, Small Business segment	The segment-specific Grid [®] for the AI SDK category, drawn from reviews submitted by small-business users. Segment Grids are published separately by G2 and count as distinct reports.
Grid[®] Report for AI Agents for Business Operations Link: G2 category page	Fall 2026	Grid[®] — AI Agents for Business Operations	Lyzr.ai appears in the product set behind the AI Agents for Business Operations Grid [®] , a category tracking 2,092 products with data as at 1 September 2026.

Latka

Latka publishes operating metrics for private SaaS companies, gathered through founder interviews and used widely by investors, acquirers, and competitive researchers. It is not an analyst assessment, but it is the most-referenced public source of Lyzr's revenue and efficiency figures and is included here because those numbers are quoted back in analyst and investor conversations.

Report / Publication	Year	Category / Label	Detail & Significance
Latka company metrics profile — Lyzr AI Link: Latka company profile Link: Latka CEO interview	Jul 2026	Company Metrics Profile — Founder-Reported	Latka published a metrics profile for Lyzr following a CEO interview with Siva Surendira conducted 7 July 2026 and published 8 July 2026. Figures carried on the profile: \$12M ARR (as at June 2026), \$250M valuation, 32 enterprise customers, and 95% gross margin, with the company founded April 2023. Profile last refreshed 10 September 2026. These are founder-reported figures captured in a Latka interview rather than independently audited metrics, and the \$250M valuation reflects the February 2026 round. Any external use should be attributed to Latka and dated accordingly.

IBM

Lyzr's relationship with IBM was formally launched at IBM Think 2025 (May 2025) and has matured across IBM Cloud, watsonx Orchestrate, and IBM's own analyst-grade research arm (IBM Institute for Business Value). IBM is the only hyperscaler where Lyzr is simultaneously a marketplace vendor, watsonx Orchestrate Agent Catalog partner, and a named example in an IBM-published research report.

Report / Publication	Year	Category / Label	Detail & Significance
IBM watsonx Orchestrate — Agent Catalog Launch Link: IBM watsonx partners directory Link: Lyzr x watsonx Orchestrate page	May 2025 (IBM Think)	watsonx Orchestrate — Catalog Partner	Lyzr named one of the key integrations to the IBM watsonx Orchestrate Agent Catalog at IBM Think 2025. Per Siva Surendira's announcement: <i>'Lyzr's enterprise agents in banking and insurance will now be available in the agent catalog of IBM watsonx Orchestrate.'</i> Enterprises can build multi-agent systems across IBM watsonx + Lyzr; AWS-VPC-deployed Lyzr agents integrate natively with watsonx. Ritika Gunnar (GM, IBM Data & AI / watsonx) name-checked Lyzr on the Think mainstage.
IBM Cloud Catalog Listing — Lyzr Company Research Agent Link: IBM Cloud Catalog page	Live (last updated Dec 22, 2025)	IBM Cloud Marketplace — Productised Agent	Lyzr is officially listed as a third-party service vendor inside the IBM Cloud catalog, with provider shown as Lyzr Inc. The Company Research Agent is positioned for investors, analysts, and business researchers — validating Lyzr as a productised agent vendor inside IBM's own marketplace, not just a partner reference.
IBM watsonx Technology Partners Directory Link: watsonx partners page	Live 2025–2026	watsonx Technology Partner	Lyzr appears in IBM's published list of watsonx technology partners under the AI Agents partner category, with IBM's own copy reading <i>"IBM and Lyzr have partnered for businesses to build reliable, private, self-learning AI agents."</i> A formal partner-ecosystem placement on an IBM.com property, providing ongoing third-party validation distinct from event-driven announcements.
IBM Institute for Business Value (IBV) — 'Agentic AI's Strategic Ascent' Link: IBM IBV report	October 10, 2025	IBV Research — Named Agentic AI Marketplace	IBM's flagship IBV report on the agentic operating model — full title <i>'Agentic AI's strategic ascent: Shifting operations from incremental gains to net-new impact'</i> — references Lyzr AI Marketplace as one of the agentic AI marketplaces 'already operating today' across finance, healthcare, marketing analytics, and conversational AI. This is direct IBM analyst-grade validation of Lyzr inside an official IBV publication — equivalent in weight to coverage from Gartner / Forrester / IDC.

Google / Google Cloud

The Lyzr–Google Cloud relationship began with a formal partnership announcement in September 2024 and has matured into a multi-surface integration: a Google Cloud Ready – BigQuery designation, AI Agent Ecosystem Program partner status, dedicated partner-directory listing, and product-level co-positioning across Gemini, BigQuery, Vertex AI, AI Studio, GKE, and Google Agentspace.

Report / Publication	Year	Category / Label	Detail & Significance
Google Cloud Ready – BigQuery Designation Link: Press release Link: Lyzr × Google Cloud partner page	April 10, 2025	Google Cloud Ready – BigQuery	Formal Google Cloud Ready – BigQuery designation, validating that Lyzr agents have native, validated BigQuery integration. Press release commits to listing Lyzr agents on the Google Cloud Marketplace. This is a Google-issued technical validation, not a self-claim.
Google Cloud AI Agent Ecosystem Program Partner Link: Google Cloud Blog post	2024–2025	AI Agent Ecosystem Partner	Lyzr listed among partners on the Google Cloud Partners blog as part of the AI Agent Ecosystem Program – companies with AI agent capabilities available via the new AI Agent Marketplace / 'AI Agent Space' category in Google Cloud Marketplace. Lyzr.ai is named verbatim in the partner list alongside Automation Anywhere, DataStax, Elastic, and ema.co. Post published 21 November 2024.
Google Cloud Partner Directory Link: Partner directory listing	Live 2025–2026	Partner Directory – Official Listing	Lyzr has an official partner profile on cloud.google.com's Find-a-Partner directory – the canonical surface enterprise buyers use to discover and qualify Google Cloud partners.
Google On-Stage – Lyzr AI Featured on Screen at Google	May 21, 2025	Google On-Stage Featured	Lyzr AI featured on screen at a Google event in May 2025 – documented by an attendee's LinkedIn post (PrNce Gupta). Provides third-party corroboration of Google placing Lyzr on a major-stage screen during the Cloud Next 2025 / I/O 2025 cycle, beyond Lyzr's own marketing channels.

AWS (Amazon Web Services)

AWS is Lyzr's deepest hyperscaler relationship and the single largest concentration of analyst-equivalent recognitions outside Gartner. In the past 12 months Lyzr has been named a 2025 Geo & Global AWS Partner of the Year Finalist (GenAI Competency), achieved both the AWS Generative AI Competency and the AWS Agentic AI Specialization, listed multiple SKUs on AWS Marketplace, shared the AWS Summit NYC stage with AWS Marketplace leadership, and is a recognised Agentic AI partner in AWS's own APN editorial channel.

AWS Awards, Competencies & Strategic Status

Report / Publication	Year	Category / Label	Detail & Significance
2025 Geo & Global AWS Partner of the Year — Finalist Link: APN Blog announcement Link: Press release	December 2025 (re:Invent)	Partner of the Year — Finalist (GenAI)	Lyzr named a Finalist in the 2025 Geo & Global AWS Partner of the Year Awards in the Generative AI Competency category (alongside Weaviate; winner Writer). AWS's own announcement records under GenAI Innovator Partner of the Year: "Global: Winner – Writer Finalists – Lyzr, Weaviate." Announced at the re:Invent 2025 Partner Awards Gala. One of the highest annual recognitions AWS gives any ISV partner.
AWS Generative AI Competency Link: AWS AI Competency partners — APN Blog Link: Press release	July 2025	AWS Competency	Lyzr formally achieved the AWS Generative AI Competency, the AWS-validated badge confirming production-grade GenAI capability on AWS. Lyzr is named among the Agentic AI Partner solutions recommended by AWS in the APN Blog announcement of the new agentic categories. This is the prerequisite credential for AWS field co-sell motion.
AWS Agentic AI Specialization Link: Press release	December 3, 2025	AWS Specialization	Lyzr is one of the early ISVs to earn AWS's newly introduced Agentic AI Specialization — a category-specific credential introduced in late 2025 specifically for agent-platform providers. Confirms Lyzr's positioning at the front of AWS's agentic AI partner motion.
AWS GenAI Innovator of the Year — Top 3 Finalist 2025 Link: APN Blog announcement	2025	AWS GenAI Innovator — Top 3	Top 3 finalist for AWS GenAI Innovator of the Year 2025 — finalist cohort included Writer, Glean, Perplexity, and Pinecone. Places Lyzr in the topmost tier of AWS's GenAI ISV recognitions for the year.
AWS ISV Accelerate + GenAI Strategic Collaboration Agreement (SCA) Link: Lyzr-AWS partnership page	2025	ISV Accelerate + GenAI SCA	Lyzr is an AWS ISV Accelerate partner and a party to a Generative AI Strategic Collaboration Agreement (SCA) with AWS — both top-tier commercial designations granted to ISVs AWS strategically co-sells with.

AWS Marketplace – Production SKUs Live

Report / Publication	Year	Category / Label	Detail & Significance
Lyzr Agent Studio (flagship platform) Link: AWS Marketplace listing	Launched June 10, 2025	Marketplace SKU – Platform	Lyzr Agent Studio launched on AWS Marketplace as the flagship low-code agent platform SKU, available via private offers. Anchor listing for Lyzr's AWS commercial motion.
Lyzr Enterprise Chat Agent Link: Marketplace listing	2025	Marketplace SKU – Enterprise Chat	Productised Enterprise Chat Agent listed as a standalone SKU on AWS Marketplace – targeted at internal knowledge-base / employee-support deployments.
Lyzr AI Sales Agents Hub Link: Marketplace listing	2025	Marketplace SKU – Sales Agents	Sales-vertical agent bundle on AWS Marketplace, covering AI SDR, outbound, and revenue agents.
Lyzr HR Agents Hub Link: Marketplace listing	2025	Marketplace SKU – HR Agents	HR-vertical agent bundle on AWS Marketplace, supporting recruiting, onboarding, employee-help, and HR document workflows.
Lyzr Customer Service Agents Hub Link: Marketplace listing	2025	Marketplace SKU – Customer Service	Customer Service agent bundle on AWS Marketplace.
Lyzr Banking Agents Hub Link: Marketplace listing	2025	Marketplace SKU – Banking Agents	Banking-vertical agent bundle on AWS Marketplace, directly aligned with Lyzr's BFSI go-to-market.
Lyzr AI Seller Profile on AWS Marketplace Link: Seller profile	Live 2025–2026	Verified ISV Seller	Lyzr maintains a verified ISV seller profile aggregating all SKUs and customer terms on AWS Marketplace.

AWS Published Technical References

Report / Publication	Year	Category / Label	Detail & Significance
APN Blog – AWS AI Competency Agentic AI Partner Link: APN Blog post Link: APN Blog – Lyzr tag	2025	AWS APN Blog – Featured Partner	Lyzr is named in the AWS Partner Network Blog announcing the new agentic AI categories for AWS AI Competency Partners, and carries its own APN Blog author/entity tag. AWS-owned editorial channel reference.

Bedrock / AgentCore – Product Integration

Report / Publication	Year	Category / Label	Detail & Significance
Amazon Bedrock Integration (Nova, Claude, Llama) Link: Lyzr-AWS partnership page	2025	Bedrock Integration	Lyzr Agent Studio integrates with Amazon Bedrock for foundation model access (Nova, Claude, Llama). Listed on Lyzr's AWS partnership page as a core integration surface.
Amazon Bedrock AgentCore Link: Lyzr × AgentCore blog Link: Why Lyzr is AWS's Ideal Partner blog	2025	AgentCore Runtime Integration	Lyzr operates as a runtime / control-plane partner for Amazon Bedrock AgentCore. Co-published technical material describes how Lyzr and AgentCore together accelerate enterprise AI agent deployment with security and speed.

Microsoft Azure & NVIDIA

Microsoft Azure is the fourth hyperscaler to formalise a Lyzr technology partnership, completing the AWS–Google–IBM–Microsoft set. NVIDIA sits alongside it as a silicon-layer ecosystem placement. Both are analyst-equivalent ecosystem validations rather than research-house assessments.

Report / Publication	Year	Category / Label	Detail & Significance
Microsoft Azure — Named Technology Partner Link: Lyzr × Microsoft partner page	Live May 2026 – 2026	Azure Technology Partner	Microsoft Azure is listed as a named Lyzr technology partner alongside AWS and Google Cloud. The positioning is explicitly complementary rather than competitive: "Microsoft builds the agents. Lyzr takes them to production." Target buyer is defined as CIOs and global SI partners standardising on Azure AI Foundry and Copilot Studio, with Lyzr as the production layer that turns agent prototypes into governed, observable enterprise software.
Azure VNet Reference Architecture Link: Lyzr × Microsoft partner page	2026 (updated Jul 16, 2026)	Published Reference Architecture	A published reference architecture places every Lyzr module — Architect, Graph RAG + Agentic RAG, Cognis Memory, SuperFlow hybrid orchestration, Agent Simulation Engine, Agent Improvement Engine, GitAgent, Agent CI/CD, Entitlement Policy, and Agent Gateway + Registry — inside the customer's own Azure VNet. Agent Runtime connects to Azure AI Foundry (linking SharePoint, OneDrive, Microsoft 365); Model Serving connects to Azure OpenAI Service (linking Fabric IQ). Stated outcomes: 85% of Lyzr projects reach production against an industry average under 30%; 14 platforms collapsed into one; 48 hours from blank canvas to a deployed, governed, simulated agent.
NVIDIA Inception Program Link: Announcement	May 22, 2025	NVIDIA Inception Member	Lyzr accepted into the NVIDIA Inception Program, NVIDIA's programme for startups innovating in AI, machine learning, and data science. Membership provides technical resources, training, preferred hardware and software pricing, and introductions to venture and industry networks. As an NVIDIA ecosystem partner Lyzr integrates with NIM microservices and GPU infrastructure stacks, including a published telecom agent reference built on NVIDIA.

AIM Research

AIM Research is the analyst arm of Analytics India Magazine, the most influential India-headquartered AI research property. Its PeMa Quadrant is widely referenced by Indian enterprise CIOs and procurement teams for vendor evaluation in the agentic AI category.

Report / Publication	Year	Category / Label	Detail & Significance
AIM Research — Top Agentic AI Platform Providers 2026 (PeMa Quadrant) Link: Report page Link: PeMa Quadrant framework	2026 (PeMa cycle)	PeMa Quadrant — Agentic AI Platforms	AIM Research's flagship vendor evaluation, ranking 15 vendors on market Penetration (Pe) and platform Maturity (Ma) for autonomous-agent / enterprise-workflow execution. Lyzr appears in this agentic-platform vendor universe alongside the leading global agentic AI platforms. AIM Research's PeMa Quadrant is widely referenced by Indian enterprise CIOs and procurement teams.

VC & Investor Market Maps

Confirmed placements of Lyzr inside named market maps published by tier-1 venture investors. These map placements are heavily circulated among enterprise buyers, founders, and limited partners — they function as informal analyst-equivalent signals about which companies are 'in the conversation' for a given category.

Report / Publication	Year	Category / Label	Detail & Significance
Insight Partners — AI Agents Market Map	December 20, 2024	Insight Partners — Market Map	Lyzr placed on Insight Partners' published AI Agents market map. Insight Partners is one of the most active enterprise-software investors globally and its market maps are widely circulated inside CIO and CTO buying committees. Confirmation on file: Anirudh Narayan's LinkedIn post showing the map graphic with Lyzr called out.
Andreessen Horowitz (a16z) — Enterprise AI / AI in Sales Market Map Link: Lyzr Platform LinkedIn post	August 1, 2024	a16z — Market Map	Lyzr placed on an Andreessen Horowitz market map covering enterprise AI / AI in sales agents. Confirmation: Lyzr Platform's LinkedIn post tagged #aiinsales #aiagents #aiforenterprise carrying the a16z map graphic with Lyzr visible — "We were just featured in A16z's Market Map of AI Sales Applications!" a16z's market maps are among the most-referenced category-mapping artefacts in venture and enterprise software.
